CENTRIC DATABASE

The new centric database showcases all records related to a particular athlete with add, edit, print, etc functions on one page.

Once an athlete is selected using the drop-down, the Athlete listing section will collapse, and all related records will show up in the 2nd and 3rd listing screen sections.

Selecting a specific injury from the injury list will then narrow down the 3rd listing screen to only show records related to the selected injury.

When selecting a database other than injury in the 2nd listing screen, the 3rd listing screen will disappear. Then the 2nd screen will resize to show more records.

The columns within each section have also been minified from the traditional databases to showcase the most important information and improve readability on small screens.

When clicking into the Centric Database, you will notice that the button bar disappears. This is to improve readability because there is a lot of information to display. To access the bar again, click on the dashboard button.

To see all athletes again, click on the Show All icon right below the Athlete section heading.

The screenshot displays the Centric Database interface for an athlete named Jannel L. Doe (ID: 12345). The interface is divided into three main sections: Athlete, Injury, and Treatment.

Athlete Section: Shows the athlete's name and ID, and a table of their participation records.

	Full Name / ID	Practice	Game	Cleared	Sport 1
	Doe, Jannel L. (12345)	Full go	Full go	No	Softball

Injury Section: Shows a list of injuries with columns for Injury Date, Body Part, Injury, Side, Modified, and Closures.

	Injury Date	Body Part	Injury	Side	Modified	Closures
	10/15/2021	Shoulder	Laceration, Dislocation	Right	2/8/2022	Nc
	9/28/2021	Ankle	No Injury	Right	2/8/2022	Nc
	9/23/2021	Knee	Spasm		10/5/2021	Nc
	9/22/2021	Ankle	Sprain	Right	9/27/2021	Nc

Treatment Section: Shows a list of treatments with columns for Date, Treatment, and Quick.

	Date	Treatment	Quick
	2/8/2022	Wound Care	No
	11/2/2021	Electrical Stimulation	Yes
	11/2/2021	Electrical Stimulation	Yes
	10/20/2021	Body Mechanics Training	No
	10/18/2021	Hot Packs	Yes

LISTING SCREEN IMPROVEMENTS

The listing screens show more information. For example, the concussion database now includes results for each concussion assessment type.

Columns were rearranged so the most important information remains easily visible on smaller screen sizes.

You can now double click on a row to open and edit records.

ITEM LISTS IN RECORDS

The Item Lists within the Athlete, Injury, Treatment, Medication, and Referral databases have been converted to pop-ups rather than in-line editors.

With this new format: more information is displayed at once, users no longer have to scroll horizontally on small screens, and the screen does not have to reload each time a pick-list option is selected.

Use the **Add Another** button to add multiple modalities from the pop-up.

BUTTON BAR

Database icons are now arranged in order of most frequently used to least frequently used within the button bar at the top of the dashboard.

FILTERS

To allow for better resizing with various devices, the Sports and Group filters on the listing screens have been moved to the Filter button.
